WHO WE ARE

CZMOS Magazine is an independent Italian publication exploring contemporary Asian culture across music, fashion, film, visual arts, literature and creative communities.

Founded in 2025, **CZMOS was created to offer European audiences a more thoughtful and visually driven perspective on Asia.**

We move beyond fast-moving trends to explore the people, ideas and cultural shifts shaping the region today. Through journalism, interviews, photography and original visual storytelling, we connect Asian creative scenes with readers across Italy and Europe.

Our editorial network currently operates across Italy and Belgium, with Bangkok-based coverage beginning in September 2026.
